

Session Learning Curve with Extension Rate

This figure illustrates the relationship between the borrowing order per user and two session-related metrics: the percentage of sessions with at least one late item and the percentage of sessions with an extension.

The X-axis represents the **Borrowing order (per user)**, ranging from 1 to 25.

The left Y-axis represents the **Session with ≥ 1 late item**, ranging from 8% to 13%.

The right Y-axis represents the **Sessions with extension**, ranging from 52% to 68%.

The dashed blue line with circular markers represents the **Sessions with extension** rate, which increases steadily from approximately 52% at order 1 to about 67% at order 25.

The solid orange line with circular markers represents the **Session with ≥ 1 late item** rate, which decreases steadily from approximately 12.3% at order 1 to about 8.2% at order 25.

The light blue shaded area represents the confidence interval for the Session with ≥ 1 late item rate, which fluctuates between approximately 9% and 12.8%.

Borrowing order (per user)	Sessions with extension (%)	Session with ≥ 1 late item (%)
1	52.0	12.3
2	53.5	12.1
3	55.0	11.8
4	56.5	11.5
5	58.0	11.3
6	59.5	11.1
7	61.0	10.9
8	62.5	10.7
9	64.0	10.4
10	65.0	10.5
11	66.0	10.5
12	66.5	10.3
13	67.0	10.0
14	67.5	10.0
15	67.8	10.1
16	68.0	10.2
17	68.2	9.9
18	68.5	9.8
19	68.8	9.5
20	69.0	9.4
21	69.2	9.2
22	69.5	9.2
23	69.8	8.9
24	70.0	8.6
25	70.2	8.2
